

Welcome and Congratulations on Prioritizing Investing in Yourself.

While this is a financial investment for you, of course, the bigger investment you are making in yourself is the time, focus, constraint, and the prioritization that you are making. I don't take that commitment you've made lightly and will commit to providing you with everything you need toward achieving your goals.

This is going to be an exciting and powerful year ahead for you!

While these minimum requirements may become challenging for you along the way, if you truly apply the principles of what I teach and allow me to coach your though the struggles you have in staying the course, these requirements will not be hard; and in fact, you will likely find yourself over-completing and committing in these areas BECAUSE you are seeing the results that are impactful for you.

I invite you to give some extensive thought to what you envision for yourself 12 months from now. Most of us don't take the time to really consider what we want most for ourselves and for our futures. Before you begin, take some time for this exercise, and tell me all about it in our first meeting together.

I look forward to spending this year ahead with you! Let's get started!

Here's what you need to become certified.
